

Talk Outline

In my work with individuals, groups and organizations I found that in order to achieve a measure of maturity, a number of unconscious layers need to be addressed:

1. Shared agreements for safety, honor, transformation & collaboration
2. Understanding the Archetypal layer of the unconscious as a motivating force of thinking style, choice and behavior
3. Using the universal ancient wisdom of the Indigenous Archetypes combined with the 4 functions of human psyche for integrity & wholeness of personality
4. The current stage of collective consciousness and the emergence of the Archetypal Feminine in women and men
5. A basic understanding and experience of the alchemical process of transformation
6. The use of stories and Myths as a transformative & teaching tool
7. Power of emergence & embodied integrity

Dr Suzan Hojdar

CONSTRUCTING A CRUCIBLE OF DEPTH WORK USING SHARED AGREEMENTS AND THE INDIGENOUS WISDOM OF THE ARCHETYPES IN ORGANIZATIONS.

Speaker Profile

Suzan has international degrees in Jungian Analysis (IAAP), Biodanza (IBF) and Homeopathy (CEDH, HFhom) as well as a medical degree from Wits (MBBCH). She is trained in Systemic and Organizational Constellations as well as Shamanism.

Suzan works as a Personal and Corporate Consultant and is the creator of “Archetypal Leadership for Women and Men”, a unique in depth program that gives participants access to their authentic Self that allows for new possibilities of Leadership to emerge. She has been teaching this program locally and internationally since 2004.

Suzan has extensive experience in Process Group facilitation as well as Women’s Story & Myth Wisdom circles, that focus on cultivating a deeper connection with true Self and open new ways of thinking and behaving. Her synthesis of the unconscious patterns, the body and the clues from life situations offer practical alternatives in perception, appreciation and response for personal and collective healing, growth and evolution.

Suzan believes that integrated consciousness in individual people, particularly those in leadership positions are vital to the evolution of a more balanced society and she continuously promotes growth towards wholeness and evolutionary collaboration. In her work and in life she merges science with psychology, conscious with unconscious and personal with collective-systemic. Suzan also lectures & trains professional in a number of fields.

Suzan lives in Johannesburg, has 4 children and 3 small grandchildren, 2 of them twins. She loves dancing, nature, travel and creating opportunities for playfulness, lightness and fun.
